Address: Raj Nagar, Ghaziabad, UP, 201002 (IN)

PROFESSIONAL SUMMARY

Senior Software Engineer with 7 years of experience in designing and developing high performance mobile applications for Android using following technologies - Java , Kotlin, React Native, Coroutines, Compose, Room, Node.js, JavaScript. Deep understanding of Android frameworks/SDK.

TECHNICAL SKILLS

- **PROGRAMMING:** Android, Core Java, Kotlin, JavaScript, SQL, C, HTML, CSS
- **DATABASES:** MYSQL, SQLite
- **API/SDK:** Coroutines , Retrofit, Ktor, Koin, Hilt, Jetpack compose, Firebase, Room
- **FRAMEWORKS:** Android , Node.js, React Native, KMM (Kotlin Multiplatform)
- **TOOLS:** Android Studio, IntelliJ Idea, Visual Studio, WebStorm
- **PLATFORMS:** Mac OS, Windows, Linux

WORK EXPERIENCE

Senior Software Engineer (Android), HCL Ltd.

August 2021 - continuing

DigiBank CN (Banking App)

- Developed and integrated a comprehensive analytics framework that transformed user tracking data into actionable insights, leading to improved app performance and enhanced user engagement metrics within six months.
- Revamped the AutoTagging framework to systematically account for error scenarios, improved system reliability and reduced unexpected failures by 30%, enhancing overall user satisfaction across all app modules.

ECC Connect App (Childcare provider)

- Engineered a robust data storage solution for all app modules ensuring seamless offline access to critical information, improved user experience and reliability, serving over 10,000 active users monthly without interruption.
- Deployed Firebase Crashlytics to track and analyze crash occurrences, providing critical data that informed development decisions; resulting in a streamlined debugging process, which reduced issue resolution time by 50%.
- Integrated CI/CD pipeline in Azure Dev Ops for build automation.

HSD (Trips Processing)

- Engineered robust security features including SSL pinning with Retrofit; findings from initial testing directly led to a substantial decrease in vulnerabilities identified during the code review process within three project cycles.
- Investigated complex bug reports from customer feedback loops while collaborating closely with developers; findings directly led to enhancements fixing two major crash triggers frequently cited in user complaints throughout testing phases.

NYEZPass (Toll App)

- Redesigned critical features within the app's payment sections based on qualitative research findings gathered during focus groups aimed at improving the overall functionality for end-users by addressing three major usability issues.
- Designed intuitive interfaces ensuring seamless user navigation while integrating financial transactions within the application through robust architectural frameworks, reducing onboarding time for new users by over 30%.
- Diagnosed and resolved 25+ critical bugs within the EzPass App, directly contributing to a smoother user experience.

Software Developer – II (Android), Valyu AI Pvt. Ltd.

April 2020 – July 2021

- Developed Valyu App from scratch to support B2B ecosystem of organization.
- Built two Native Modules in Java which were needed to support react native mobile application.
- Conducted thorough code reviews of contributions from 5+ Android developers on collaborative projects, identified critical bugs and optimized performance.

Software Developer (Android) , Eseye Pvt Ltd.

February 2018 – March 2020

- Design and Implement new features from specifications, enhance existing features by writing optimized and high quality code from Android application layer to framework layer.
- Identify technical obstacles early and work closely with team or independently to find optimal solution in time constrain.
- Communicate with vendor, attend in conference call and provide deep technical analysis or solution.

PUBLISHED APPS

- **TextLink** - Summarises website links, latest news, books into shorter most useful paragraphs.
Play Store link- <https://play.google.com/store/apps/details?id=com.project.textlink>
- **Media Player** - Supports Audio and Video Playback.
Play Store link- <https://play.google.com/store/apps/details?id=com.softbricks.android.audiocycle>
- **Valyu** - Enables employees to access salary in advance.

EDUCATION

B. Tech, Computer Science and Engineering

ABES Institute of Technology, June 2013 - May 2017 - 63%

Additional Training (In Progress)

- Machine Learning, Data Science and Generative AI with Python, Udemy
- iOS & Swift - The Complete iOS App Development Bootcamp, Udemy
